1. Introduction

Under data protection law, individuals have a right to be informed about how the school uses any personal data that we hold about them. We comply with this right by providing 'privacy notices' (sometimes called 'fair processing notices') to individuals where we are processing their personal data.

This privacy notice explains how we collect, store and use personal data about students. We, The King's School Ottery St Mary are the 'data controller' for the purposes of data protection law.

Our Data Protection Officer (DPO) is Mr R Tait – the Director of Finance & Operations.

2. The personal data we hold

Personal data that we may collect, use, store and share (when appropriate) about students includes, but is not restricted to:

- Contact details, contact preferences, date of birth, identification documents
- Results of internal assessments and externally set tests
- Pupil and curricular records
- Characteristics, such as ethnic background, eligibility for free school meals, or special educational needs
- Exclusion information
- Details of any medical conditions, including physical and mental health
- Behaviour and Achievement Information
- Attendance information
- Safeguarding information
- Details of any support received, including care packages, plans and support providers
- Photographs
- CCTV images captured in school
- Biometric Information

We may also hold data about students that we have received from other organisations, including other schools, local authorities and the Department for Education.

3. **Why we use this data**

We use this data to:

- Support pupil learning

- Provide appropriate pastoral care
- Protect pupil welfare
- Assess the quality of our services
- Administer admissions waiting lists
- Carry out research
- Comply with the law regarding data sharing

4. **Our legal basis for using this data**

We only collect and use students' personal data when the law allows us to. Most commonly, we process it where:

- We need to comply with a legal obligation
- We need it to perform an official task in the public interest

Less commonly, we may also process students' personal data in situations where:

- We have obtained consent to use it in a certain way
- We need to protect the individual's vital interests (or someone else's interests)

Where we have obtained consent to use students' personal data, this consent can be withdrawn at any time. We will make this clear when we ask for consent, and explain how consent can be withdrawn.

Some of the reasons listed above for collecting and using students' personal data overlap, and there may be several grounds which justify our use of this data.

5. **Collecting this information**

While the majority of information we collect about students is mandatory, there is some information that can be provided voluntarily.

Whenever we seek to collect information from you or your child, we make it clear whether providing it is mandatory or optional. If it is mandatory, we will explain the possible consequences of not complying.

6. How we store this data

We keep personal information about students while they are attending our school. We may also keep it beyond their attendance at our school if this is necessary in order to comply with our legal obligations. Our Data Protection Policy sets out how long we keep information about students.

If you would like a copy of the policy, then please contact the Director of Finance & Operations to request one. Links to this document can also be found on our website.

7. Data Sharing

We do not share personal information with anyone outside the school, unless the law and our policies allow us to do so and/or without appropriate consent where applicable.

Where it is legally required, or necessary (and it complies with data protection law) we may share personal information about students with:

- Our local authority or designated partners – to meet our legal obligations to share certain information with it, such as safeguarding concerns, attendance and exclusions.

8. National Student Database

We are required to provide information about students to the Department for Education as part of statutory data collections such as the school census.

Some of this information is then stored in the National Pupil Database (NPD), which is owned and managed by the Department of Education and provides evidence on school performance to inform research.

The database is held electronically so it can easily be turned into statistics. The information is securely collected from a range of sources including schools, local authorities and exam boards.

The Department for Education may share information from the NPD with other organisations which promote children's education or wellbeing in England. Such organisations must agree to strict terms and conditions about how they will use the data.

For more information, see the Department for Education's webpage on how it collects and shares research data.

You can also contact the Department for Education with any further questions about the NPD.

9. Local Authority Support Services

Once our students reach the age of 13, we are legally required to pass on certain information about them to Devon County Council, as it has legal responsibilities regarding the education or training of 13 to 19 year-olds under section 507B of the Education Act 1996

This information enables it to provide youth support services, post-16 education and training services, and careers advice.

Parents/carers, or students once aged 16 or over, can contact our data protection officer to request that we only pass the individual's name, address and date of birth to Devon County Council for this purpose.

10. How does the Government use your data?

The pupil data that we lawfully share with the DfE through data collections:

- Underpins school funding, which is calculated based upon numbers of pupils and their characteristics in each school.
- Informs 'short-term' education policy monitoring and school accountability and intervention.
- Supports 'longer-term' research and monitoring of educational policy, e.g. how certain subject choices go on to affect education or earnings beyond school.
